

Live Streaming and Video Conferencing Packages

Stay connected at The Benson Hotel with live streaming and video conferencing services from DThree Productions. On-site guests will enjoy world class amenities and services at The Benson Hotel, while conducting business safely and effectively. Let DThree's audiovisual experts set and operate your live stream or video conference, allowing you the time to focus on your message and presentation.

DThree's packages fall into two categories: One-way live streaming and two-way video conferencing. All of the packages are expandable, scalable and personalized to meet your needs. Whether you are connecting with others within the hotel, or around the world, our video conferencing packages will help you communicate your business message.

**Our team takes all CDC recommended safety precautions against the spread of COVID-19 and performs routine environmental cleaning.

One Way Live Streaming Package #1

Starting at \$1195*

*Per Room/Site

This package allows you to broadcast high-quality video and clear audio to your viewers in an engaging experience. Any number of meeting rooms within The Benson Hotel can be connected to this live stream presentation, ensuring safe and effective social distancing for you and your attendees.

- Professional Video Camera
- Professional Audio Mixer
- 2 Wireless Handheld Microphones
- USB Video Capture Device
- Laptop Computer for Streaming
- Hardwired Internet Connection
- All Necessary Cabling Infrastructure

One Way Live Streaming Package #2:

Starting at \$1995*

*Per Room/Site

This package expands on Package #1 by adding a projector and screen for in-room slideshow/media presentations and a video switcher to seamlessly transition between the camera shot and slide deck. This gives the viewers, whether in the meeting room down the hall or in another city, a crystal clear view of any media content used in your presentation. Common add-ons include a second video camera for an additional angle, additional microphones, and video recording for replay.

- Professional Video Camera
- Professional Audio Mixer
